

METALX

recycling ltd.

ENVIRONMENTAL POLICY

At METALX Recycling, we are committed to minimizing any environmental impact of our business operations and believe that we have a corporate responsibility to adopt responsible environmental practices.

To achieve those goals we will:

- comply with environmental legislation and recognized standards
- maintain guidelines and procedures for the administration of environmental policies and objectives
- foster worker habits that promote respect for the environment and promote awareness amongst our workers
- communicate the importance of environmental issues to our workers, suppliers, contractors, and customers
- encourage feedback from workers, suppliers, contractors, and customers regarding environmental issues and concerns
- endeavour to recycle waste where possible
- consider environmental issues in the acquisition and/or design of equipment, supplies, goods and services, buildings or land
- reduce consumption of resources where applicable and increase efficient use of resources
- regularly review environmental policies and objectives
